

# **ATM** Environment Policy

*“We comply with ISO 14001  
Environmental Management  
Systems.”*

ATM Tanks values a clean environment. We are committed to recycling, preventing pollution and the ongoing protection and management of the environment.

As a licensed supplier within the industrial water tank sector, we specialise in sourcing, procurement and supplying of tank components for on-sale and direct delivery from suppliers to clients in Australia and the Pacific.

We expect all employees and contractors to:

- Conduct a risk assessment for all activities which have the potential to cause environmental harm;
- Implement measures designed to mitigate environmental harm and prevent incidents that may result in environmental damage or pollution;

- Follow all environmental rules and procedures;
- Report all incidents immediately; and,
- Consider the potential impacts to the environment in all that they do.

To achieve this the Company will:

- Maintain a risk based approach to the identification and management of hazards and opportunities;
- Develop and implement plans to improve energy efficiency, recycle materials and minimise greenhouse gas emissions;
- Ensure that environmental accountabilities are incorporated into the day-to-day work of team member and that they are provided with the resources, development and training to fulfil them;
- Communicate this policy to all employees, contractors, persons working on behalf of the
