

UNDERWATER TANK CLEANING ROBOTS

ATM Tanks - Elevating
Tank Maintenance with
Unmatched Safety!

Experience the revolutionary
benefits of our cutting-edge
underwater tank cleaning robot.
Say goodbye to risky and
wasteful practices. With ATM
Tanks' innovative solution, you
can enjoy efficient and eco-
friendly tank maintenance while
prioritizing safety.

EXPERIENCE THE ATM TANKS ADVANTAGE!

- ✓ Efficient tank maintenance
without water wastage
- ✓ Streamlined operations with
reduced reliance on divers
- ✓ Portable and convenient
solution for all tank types
- ✓ Unmatched cleaning efficiency
for optimal tank performance
- ✓ Precision navigation for
comprehensive coverage
- ✓ Safety-focused operations
for peace of mind

WHY CHOOSE ATM TANKS' UNDERWATER TANK CLEANING ROBOT?

KEEP WATER TANKS ONLINE

Water conservation is essential, and our underwater tank cleaning robot ensures your tanks stay online throughout the cleaning process. No more wasting valuable water during tank maintenance - embrace a sustainable solution for a greener future.

REDUCE THE USE OF DIVERS

Traditional methods often require sending in divers, a dangerous and costly approach. Many companies choose not to employ three commercial divers as a cost-cutting measure. Our robot streamlines the process, reducing the need for divers in most cases. Enjoy improved efficiency, reduced costs, and enhanced safety by minimising human intervention during tank cleaning.

EASY TO DISINFECT

Sending divers into tanks poses contamination risks. Our robot's smart and efficient design is easy to disinfect, ensuring a clean and safe operation. Minimise potential hazards and maintain the highest level of cleanliness.

SAFETY FIRST

Safety is our top priority. Our trained technicians operate the robot with utmost care, ensuring safe and reliable cleaning operations. Smart sensing capabilities enable the robot to detect and avoid obstacles, providing a secure environment for both personnel and tank infrastructure.

PORTABLE AND CONVENIENT

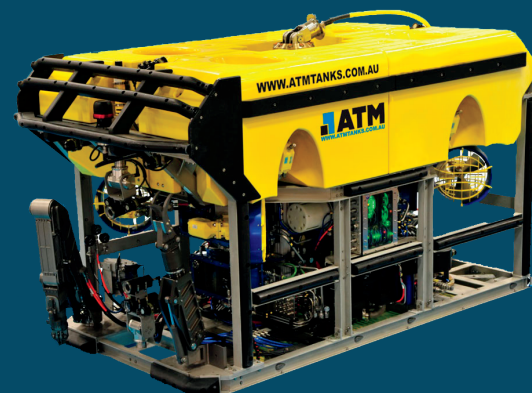

We value your convenience. Our underwater tank cleaning robot is highly portable, eliminating the need for extensive setup and logistical planning. It can be easily transported and deployed in your tanks, making the process hassle-free and efficient.

UNPARALLELED CLEANING EFFICIENCY

Experience a new level of tank cleanliness with our advanced robot. Its powerful mechanisms remove debris, algae, sediments, and contaminants with unmatched efficiency. Trust us to leave your tanks pristine and well-maintained.

PRECISION NAVIGATION AND COMPREHENSIVE COVERAGE

Equipped with intelligent sensors and navigation algorithms, our robot ensures precise movement and comprehensive coverage within your tanks. It effortlessly reaches even the most challenging areas, guaranteeing no corner is left untouched.

Choose ATM Tanks and our underwater tank cleaning robot to elevate your tank maintenance experience. Say farewell to outdated cleaning methods and embrace a sustainable, efficient, and reliable solution. Contact us today by visiting our website at www.atmtanks.com.au or calling us at 1800 422 444 to schedule a consultation and discover the ATM Tanks difference.
